

PRODUCT UPDATE

Ref No. : SSG-PUN073-0907
Release Date : 10 July 2009

Dear Distributors,

New Product Release - SDL1X

Sokkia is proud to announce the release of the new high-end digital level SDL1X, a high accuracy digital level for first order surveys and various precise measurement applications. The new SOKKIA SDL1X assures efficiency with a versatile on-board program and unique functions tailored for easy sighting.

This high-end instrument boasts FIVE Industry First features:

- Dual-axis tilt alarm
- View finder and auto focus
- SD card support
- Multiple interfaces including Bluetooth® wireless technology
- Remote trigger

Product Release Information:

1. Delivery Schedule and Availability

SDL1X is available now for ordering.

Please contact your respective sales channel for delivery schedule.

2. SDL1X Product Item Code and Standard Configuration

Please refer to attached 'Appendix 1_Product Catalogue_SDL1X'.

Note: SDL1X has Bluetooth function as the standard. However, for the case of the country/area where the Bluetooth module has not been approved, the instrument without Bluetooth is available. The List Price will be the same for with or without Bluetooth module.

3. SDL1X Price List

Price list for SDL1X will be informed by your respective sales channel.

4. SDL1X Product Information

Please refer to 'Appendix 2_Product Information_SDL1X' for SDL1X product information.

5. SDL1X Brochure

The PDF copy of the SDL1X brochure is as per the attached. Printed copy will be available beginning August.

If you have any questions, please contact your regional support channel
