SOKKIA Introduces New Data Collector Allegro MX

SOKKIA proudly announces that Allegro MX Field PC is now available for the SDR+ Professional data collection software. The Allegro MX operates on the Windows® Mobile 6.1 platform, which works seamlessly with SDR+ Professional V9.3.1 Windows Mobile Version software.

Allegro MX Features:

- **Windows Mobile 6.1** – The latest mobile operating system by Microsoft includes basic enhancements beneficial to SDR+ Professional operations
- **Integrated USB Connectivity** – USB is now integrated on the unit, eliminating the need for a 'Power Dock' desktop solution to connect to your PC
- **2 GB Data Storage** – Provides a generous, non-volatile 2 GB solid-state data storage on board for increased flexibility to the end-user for data management purposes
- **128 MB RAM** – 128 MB RAM ensures that your programs will not run out of resources at critical times
- **IP67 Rating** – Extremely rugged and water-tight enclosure
- **624 MHz PXA270 Processor** – Unbeatable speed and performance.
