

PRODUCT UPDATE

Ref No. : SSG-PUN106-1004
Release Date : 09 Apr 2010

Dear Distributors,

SOKKIA Introduces Spectrum Survey Field

Sokkia is proud to announce the release of Spectrum Survey Field (SSF) field data collection software. SSF installation files are available for Windows PC, Windows CE and Windows Mobile devices. SSF software allows you to control and integrate all SOKKIA's instrument (GNSS receivers, Total Station, Robotics, Digital Level etc.) under one job.

SSF is targeted to be the main field data collection software for SOKKIA. Refer to SSF FAQ for details.

SSF is modular software. The scalable feature of SSF means you can select and purchase modules you just need now and in the future, you can buy additional modules anytime.

SSF is available in the following modules :

- SSF Basic (TS + GIS)
- SSF Robotics
- SSF Roding
- SSF GPS+
- SSF mmGPS (currently not available)
- SSF Contractor (currently not available)

SSF Basic (TS + GIS) is the base module. Without this base module, the other modules will not be able to operate.
