

PRODUCT UPDATE

Ref No. : SSG-PUN109-1004
Release Date : 19 Apr 2010

Dear Distributors,

SOKKIA Utility Software

SOKKIA is proud to announce the release of free utility software to complement your surveying job. Namely: GRX Utility, Occupation Planning and Spectrum Link.

1. GRX Utility

GRX Utility software is designed to support Sokkia's latest GRX1 GNSS receiver. It is currently available in the following installation types:

- GRX_Utility_PC (PC version)
- GRX_Utility_WM (Window Mobile Version)

This GRX utility software comes with every purchase of GRX1 receivers. It can also be downloaded from SSG website if there is an urgent need for it. However, it will be password protected. E-mail marketing@sokkia.com.sg for the password.

Features of the GRX utility software includes:

- Check or change GRX1 receiver settings,
- Upload firmware,
- Import data,
- Upload Option Authorization File (OAF) files,
- Configure GRX1 internal digital UHF radio and GSM settings including upload of channel frequencies,
- Detailed satellite information like Skyplots and DOP,
- And other analysis information of the GRX1 receiver can easily be acquired with this comprehensive software tool from Sokkia.

More information on Sokkia GRX1 Utility can be found in "Appendix 1_ GRX Utility".

2. Occupation Planning

Occupation Planning software is from Topcon Positioning System (called Mission Planning) and is recommended to be used with GRX1 receivers. This Occupation Planning software works like the Planning software that comes with the Spectrum Survey Suite. Currently, there is yet to have a Sokkia branded version of the Occupation Planning software. If needed, user can download the Occupation Planning software from SSG website. Again, this download will be password protected. E-mail marketing@sokkia.com.sg for the password.

Features of Occupation Planning software includes:

- Import of almanac from GRX1 receivers,
- View Satellite Information
 - DOP Plots
 - Sky Plots
 - Azimuth Plot
 - Visibility Plot
 - Elevation Plot
- Edit Time
- Plot Obstructions
- Turn On/Off the GPS/GLONASS Satellites
- Print Satellite Report
- Allows user to determine the best time for survey

More information on Occupation Planning software can be found in "Appendix 2_Occupation Planning".

PRODUCT UPDATE

Ref No. : SSG-PUN109-1004
Release Date : 19 Apr 2010

3. Spectrum Link

Spectrum Link software serves as the replacement of the now discontinued Sokkia Link as announced in "Product Update Notice SSG-PUN0100-1001".

Spectrum Link software is a data import/export utility software. It is available as a free and non-supported software tool. This Spectrum Link software is bundled together with the Spectrum Survey Field (SSF) CD. It is also available for download at SSG website (www.sokkia.com.sg) and this download will be password protected. E-mail marketing@sokkia.com.sg for the password.

Features of Spectrum Link:

- Import from Device (GNSS receivers, Total Stations and Digital Level)
- Convert Files
- Simple CAD function
- Export DXF format

More information on Spectrum Link can be found in "Appendix 3_Spectrum Link".
